Product Change Notice

Dear Valued Lantronix Customer,

The purpose of this document is to notify you of enhancements to some of the Lantronix WiPort products.

Effective June 1, 2005, RS-485 support, WPA, Web Manager V1.2.0.1, and firmware version 6.0.0.1 will ship on the below WiPort products. For quality purposes, the revision numbers on the part numbers are being changed to differentiate them from the previous versions.

<u>Model Number</u>	<u>Current Part Number</u>	<u>New Part No.</u>	<u>Description</u>
WiPort	WP2001000-01	WP2001000-02	Standard WiPort
WiPort SMPL	WP200100S-01	WP200100S-02	WiPort Sample
WiPort Dev Kit	WP200100K-01	WP200100K-02	WiPort Development Kit
WiPort	WP2002000-01	WP2002000-02	Standard WiPort with 4MB of flash and 1MB of SRAM

<u>New Feature</u>	<u>Benefit</u>
RS-485 Support	RS-485 support will be available on WiPort part nos. WP2001000-02, WP200100S-02, WP200100K-02, and WP2002000-02
WPA	Wireless Protected Access , improves the security features of WEP
Web Manager V.1.2.0.1	Contains fixes for known issues
Firmware V6.0.0.1	Various upgrades including: Wireless Protected Access (WPA) security suite with preshared keys; 128,192 and 256 bit AES encryption (only available on certain WiPort product options); OEM setup record allows OEM customization of setup menu splash string, SNMP identification, init char and DHCP name

WPA firmware will be cut into the manufacturing process and loaded into the device as a standard part of the firmware. The code and instructions are available to download from our website for your customers that would like to take advantage of this new capability immediately.

<ftp://ftp.lantronix.com/pub/WiPort/6.0.0.1/>

If existing customers need this capability, the FAEs will have the ability to work with them to upgrade to this functionality.
