## PRODUCT CHANGE NOTICE

Dear Valued Lantronix Customer,

The purpose of this communication is to inform you of the availability of new software release for products based on the CoBos operating system.

### **Change Type**

Software

### **Products Affected**

XPORT-05

Part Number	Description	Old Revision	New Revision
XP1001000M-05R	XPORT XE ROHS EXTENDED TEMP MODBUS BULK	B12	C12

### **Description and Extent of Change**

New application firmware is available for the above products and their SKUs that addresses the vulnerability for customers using the basic password configuration instead of the enhanced password configuration.

This update enhances the security and handling of passwords. If you are using the basic password, this is a critical security update. Even after applying this updated firmware, we highly recommend that you only use the enhanced password in your systems. Please refer to the user documentation on further details regarding the configuration of the enhanced password.

### **Effect of Change on Fit, Form, Function, Quality, or Reliability**

For customers using standard Lantronix firmware, it is highly recommended that you upgrade your firmware to the new versions outlined below.

Product Variant	Part Number	Software Version
XPORT-05	XP1001000M-05R	Firmware: v3.3.0.6

The firmware is available for download from the Lantronix website (<http://www.lantronix.com>) from June 5, 2018.

### **Effective Date of Change**

Affected products will begin shipping with the new software from Lantronix after July 15, 2018.

If you have any questions, please contact your sales representative or Lantronix Technical Support at (800) 422-7044 or (949) 453-7198.
